## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance.
3. The prior art of record fails to fairly teach or suggest: A semiconductor manufacturing apparatus comprising: an integrated measuring instrument for measuring the form or size of the element to be formed on a wafer; etching means for etching the wafer by using plasma generated under reduced pressure; ashing means for ashing the etched wafer; wetting means for wetting the etched wafer; drying means for drying the wafer which has gone through a wetting treatment; transport means for transporting wafers contained in a wafer cassette one by one successively along a depressurizable transport passage to the integrated measuring instrument and each working unit, including the etching means, the ashing means, the wetting means and the drying means, for treatment; and **control means for controlling an order of treatment of each working unit, including the etching means, the ashing means and the drying means for transportation, using said transport means, along a depressurizable transport passage; wherein, depending upon an order of treatment designated by said control means, the etched wafer is ashed and then subjected to the wetting treatment, or the etched wafer is wetted and then subjected to an ashing treatment, and afterwards, the etched wafer is again measured by the integrated measuring means.** Further, no other properly combinable piece of art was located to provide the proper motivation for adding the feature(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
